

Soaking up the Sunshine in Nursery

Personal, Social and Emotional Development

We know emotions are a big part of Early Years, and sometimes we find it really difficult to express those emotions and respond to the emotions of others. We are beginning to understand why we have certain emotions, but now we need to comprehend the idea that we can express emotions using our voice and not just our actions.

We will be building on the importance of togetherness and friendships, understanding how to be kind and how to be a good friend to others.

*Playing is fun,
but together is better!*

Literacy

This term we will be diving into the Wonderful World around us, including On the Farm and Under the Sea. We will be talking about how we can look after our animals and our environments by learning facts about animals through fiction books and imaginative stories and role play to support our ever growing Literacy skills.

We will also be continuing to explore sound around us and within our environment. We will also continue to build on our Phonics knowledge as we adventure into our final chapter in Nursery (check our school readiness to find out more!)

Dates for your Diary

Induction for New Starters 17th April
New Starters begin 25th April
Kings Coronation 8th May 2023
12th/13th/14th June Farm comes to Trinity!
12th July Annual Reports released

School Readiness Begins

And so with the Summer Term beginning so does majority of Nursery children's last term with us before heading of the school. It's that all important time where we reflect on their learning over the last year or so at Trinity before they head to the beginning of their School lives. A mixture of looking back at our previous learning as well as that all important Phonics Based Learning to support our Early Writing and Literacy skills. We can use guides to draw our names and are beginning to have knowledge of the Phonetic Alphabet, but now it's time to put it into practice! Look out for at home tasks to support your child's readiness for School

Mathematics

This term we will be focusing on amounts and the developing mathematical language we have been progressing with over the last year. We will be focusing on how we establish numbers within a group to work out total amounts. We will also be focusing on the value of numbers up to 5 and challenging to 10.

Creative Expression

We will be continuing with our Creativity Expression but adding more independent learning activities for the children. Teachers will provide the tools and for children to use their imagination to come up with our own ideas for creations.

We will also be continuing our development of rhythmical awareness with Mr Chance and manipulating our bodies and our voices with Mr Nagshineh.

Understanding of the World

We will be having some visitors this term, starting with some fluffy chicks. We will be learning all about life cycles of animals and plants, how to take care of the environment around us and what makes us a part of the community.

Things to take note of...

Reminders

- Water bottles are now encouraged as we begin to develop our independence here in Nursery, we either ask if you can label your child's bottle or give permission for us to label their bottle for the their session.
- We will be remaining to send updates on Marvellous Me as the year goes on, please make to interact with our learning through using our high five system! If you need a new code please ensure to let Miss Sloan know on the door.
- Toys from home are being asked to stay at home—we want to ensure all cars, animals and other toys remain safe at home and not in the hands of other children and become lost!
- Spare clothes! We are politely reminding parents to bring in spare clothes for children, we understand that accidents are not predicted but with us spending more time in the garden children tend to forget their needs more.
- Toilet Training from this term unless medically exempt, all existing children going to school in September MUST be toilet training and attending Nursery in pants. Please ensure to continue the process at home.
- Sunhats and cream please ensure to you apply cream before attending Nursery as we cannot apply cream on your behalf. Sun hats will also be a necessary—names on please!
